DRASTIC BLOCKADE OF RUSSIA IS CONSIDERED BY ALLIES

POLES REPORTED ON THE OFFENSIVE AS RUSSIAN ARMY MENACES WARSAW

Counter Thrust Made by Hard Pressed Warriors to Defend Capital.

AMERICAN BIRDMEN ALL INCAPACITATED

Kaskisko Escadrille Wounded or Killed, but None Captured by the Radicals.

(International News Service) PARIS, August 2.—Herr Von Mayer, German charge d'affaires, today notified Premier Millerand that Germany has ordered the reichwehr (the German standing army) to proceed to the east Prussian frontier because of the menace of a Russian Bolshevik invasion.

(International News Service) LONDON, August 2.—The allies have decided to clamp down a more drastic blockade upon soviet Russia, if the armistice negotiations fail, it was learned from an authoritative source this afternoon. Preparations to this end are already proceeding. Official circles make no secret of the fact that neither Great Britain nor France is prepared to go to war against Russia. Any measures that are taken must be of an economic nature.

(International News Service.) PARIS, August 2.—The Poles have halted their retreat and have begun a counter-offensive over the larger part of the Polish front, said a Warsaw dispatch today.

REBELLION BREAKS OUT

(International News Service.) LONDON, August 2.—A great anti-Bolshevik rebellion has broken out in western Ukraine and the soviet government has dispatched two divisions to quell it, said a central news dispatch from Warsaw today.

DRIVE ON WARSAW

(International News Service.) LONDON, August 2.—Active armistice negotiations between the Poles and Russians may not commence until the latter part of this week, according to a Warsaw dispatch today. In the meantime the Russian troops are continuing their great converging drive on Warsaw. The Poles are demanding complete independence.

REDS IN ARMENIA

(International News Service.) CONSTANTINOPLE, August 2.—Local soviet administrations are being established in the wake of the Russian red army which has invaded northern Armenia.

HARD ON AMERICANS

(International News Service.) LONDON, August 2.—The entire Koskisko Escadrille, made up of American aviators fighting with the Polish army, has been incapacitated in trying to stem the Russian advance on Warsaw, it was announced by Capt. George Kelley, of Richmond, Va., a member, who was in London today. He said all the members had been wounded or killed but that not a member of the escadrille had been captured by the Russians.

HEAVY LOSSES INFLICTED

(International News Service.) WARSAW, August 2.—The Poles have begun a counter-offensive in northern Galicia, the war office announced today. The first announcement said that heavy losses had been inflicted upon the enemy and much booty recaptured.

Knoxville Youth Is Found Dead; His Throat Cut

(International News Service) KNOXVILLE, Tenn., August 2.—Jesse Bacon, 24, was held by the police here today pending the clearing up of the mysterious death of John Morgan, 15, son of a wealthy ice cream manufacturer. The lad was found dead in the bathroom of his home last night with his throat cut.

WOMAN ACCUSED OF MURDER OF WHICH SHE KNOWS NOTHING SHE CLAIMS TO THE OFFICERS

Belle Garner Charged With Stabbing Husband to Death at Negro Dance at Cedar Lake Saturday Night.

Belle Garner, negro woman, is in the Morgan County jail this morning, according to her own confession just recovering from a "drunk" and charged with a murder of which she claims to know nothing. The woman is alleged to have stabbed her husband, Ed Garner, in the neck with a knife, severing the jugular vein. The affray occurred at a negro dance at Cedar Lake Saturday night about 11 o'clock, according to the reports made to officers.

The woman was arrested shortly after midnight by Sheriff J. V. May at the home of a cousin, Sam Hargrove, near Cedar Lake. She is said to have been in an intoxicated condition at the time of her arrest.

According to the story told by the defendant this morning she was given some whiskey by a cousin of the man she is alleged to have slain. Shortly thereafter, she claims, she lost her memory and has no knowledge of the killing. She admitted that she remembered having had a knife in her possession but recalled nothing of the circumstances leading up to the fatal quarrel.

She said she thought she was taken away from the dance by someone, and denied having had any knowledge of "running away." The dance was attended by a number of negroes and the killing created much excitement. The woman today was confined in a separate cell in the county jail. She had not retained counsel, she said.

"KEEP OFF ROAD" CONTRACTORS URGE

PUBLIC REQUESTED TO WAIT UNTIL SOMERVILLE PIKE IS COMPLETED

The public today was requested to refrain from driving on the Somerville pike until the paving there is entirely completed. It was pointed out that the rock, before it has become settled, is easily dislodged and until the final surface is put upon it, driving on the road is very likely to cause serious damage.

The following statement was issued:

"The contractors of the road work on the Somerville pike earnestly request the public to keep off the closed part of it until finally thrown open for travel. Much damage results when the unseasoned road is driven over and it is necessary that barriers erected by the contractors be paid attention to. In a short time the pike will be in fine condition if the public will aid the contractors in this matter."

Red Cross Appeals For Boy's Clothing

The Morgan county chapter of the American Red Cross today issued an appeal for clothing for five boys, aged respectively 2, 5, 7, 10 and 13 years, whose father recently took his own life. The family is reported in a destitute condition, and assistance must be given at once. Those who care to contribute should notify the Red Cross headquarters, over the City National Bank building, Decatur.

GOVERNOR COX ADVISED PLATE HIDDEN DURING REVOLUTION

Democratic Candidate Tipped That Silverware Buried by His Famous Ancestor.

(International News Service) DAYTON, August 2.—Governor James M. Cox will begin a search for buried treasure as soon as his official duties will permit.

The Governor has just learned in a letter from one of his aunts that somewhere near Freeborn, N. J., a large quantity of silver plate and silverware is buried. It belonged originally to the family of his great-grandfather, General James Cox.

BURLESON'S ROAD CONTRACT ENDED NEW CONTRACTOR IS BEING SOUGHT

Patterson Goes to Montgomery Tuesday for Conference on the Project.

HARTSELLE HIGHWAY STILL INCOMPLETE

Cost of Road Was Too High, Officials Believe, Report Says.

The state highway department is in search of a contractor to complete the highway from the Twin Cities to Hartselle and A. G. Patterson, member of the commission from the Eighth district, will go to Montgomery Tuesday afternoon to confer with road builders regarding the work in this county.

The contract with R. A. Burleson, of Hartselle, to complete the road has been terminated, it was announced today. The road has long been a thorn in the side of the road building program of the county.

In 1918 a contract was awarded to Wolfe and Son for constructing the highway, totalling about 9 miles. Time passed without a great deal of work being done and in 1919 the company on Mr. Wolfe's bond was called upon to take action. The company desired that the county complete the road, with the bonding company standing good for the amount of the bond. A contract then was given Mr. Burleson to complete the highway on a cost plus 7 1/2 per cent basis.

Only about three and one half miles of the road has been built since the work started in 1918 and the state highway commission became restive under the delay. Since the state took over the road building projects under the act creating the department, the state highway commission has jurisdiction over the work on the Hartselle road.

It was reported here today that the cost of the road being built by Mr. Burleson was considered too high and that unless cheaper means were found for constructing it, the funds available on the original bond soon would be exhausted without the completion of the project.

GRAND JURY IS AT WORK AGAIN TODAY

AFTER WEEK-END REST BODY COMMENCES SECOND WEEK OF PROBING.

The Morgan County grand jury, convened last Monday by Judge O. Kyle in the Circuit court, was at work again today after a week-end rest. The courthouse corridor was crowded with witnesses expected to appear before the jury today. It is possible the jury will require the greater part of this week to complete its labors.

National Lessons

"The lesson is a national, as well as an individual one. Our nation is the Dives nation. It is superlatively the richest and most resourceful by comparison in all history."

"Just now it would seem that Poland is the 'Lazarus Nation'. For six years it has been swept by contending armies. Poland is literally engulfed in horror, with the ferocious hounds of the Bolsheviks ravenously devouring it, and furthermore, these hounds baying at all civilization!"

POLAND IS LAZARUS NATION OF WORLD GODBEY DECLARES ADDRESSING CLASS

Duty of United States to Aid Stricken Nation, Speaker Points Out.

LOCAL ATTORNEY TALKS TO BARACCA CLASS MEN

Large Crowd Heard the Eloquent Address on Sunday Morning.

Hon. E. W. Godbey spoke to the members and visitors of the Berry Bible class yesterday morning, basing his address on the scripture narrative of Dives and Lazarus. As the speaker proceeded his eloquence held his hearers' closest attention, and toward the last made a strong appeal for the relief of Poland, saying that nation was the "Lazarus Nation of the world," and that America was the "Dives Nation" of all history.

Mr. Godbey said: "In the account of Dives and Lazarus we have the only account anywhere of the future world. It is a picture of such startling contrasts, as that in no literature nor even in the imagination can we produce its parallel. There is the one man rolling in the extreme luxury; the other rotting in direst destitution. The one pampered and attended by servile minions; the other attended only by vagabond curs! The one is decked in costliest apparel; the other in filthy rags. The record takes pains to say one was buried, yet significantly omits all reference to the burial of the other. And one in supremest ecstasy is harbored in the bosom of the father of the faithful, the other writhing in most exquisite agony."

Great Gulf Fixed

"The gulf between the two spirit worlds is impassable. We must look for scriptural recognition of purification through purgatorial fires and ultimate reclamation outside of this narrative."

The gulf between the two spirit worlds is not here declared to cut either of them off from this world. Abraham did not deny the possibility of sending Lazarus back to the brothers of Dives, as a herald of an awful retribution, but he said it would do no good.

"What will you do with your Ouija boards and such Tom foolery? All the mediums and like ilk are useless, and all such are denounced as sorcery. If arch angels could fulfil the mission of the church, there would be a flaming arch-angel in every church every Sunday. The spirit world and the material world are on plains entirely different. If Moses and the prophets attuned to the human scale could not appeal to Dives brethren, then a resurrected body with a soul returned from the spirit world could not make an appeal they could appreciate, and it would be vain and silly to attempt it, even though a returned Lazarus might make himself faintly understood, or misunderstood in a vague sort of fashion."

"We are here taught that unbridled self indulgence is equally as fatal as abject destitution."

"Dives and Lazarus died about the same time. Had Dives divided with Lazarus, both might have lived much longer. The record does not show Dives to have been positively wicked, or that his wealth was ill gotten. He was an orthodox Jew, calling Abraham 'father,' and being called by him 'son'."

His only trouble was indifference to obviously stark destitution."

COTTON FLOURISHES, WITH 12,519,000 CROP FORECAST

Department of Agriculture Reports that Condition of Staple is Now 74.1 Per Cent.

(International News Service) WASHINGTON, August 2.—The crop reporting board of the United States department of agriculture, estimates from reports of correspondents, that the condition of the cotton crop on July 25 was 74.1 per cent of normal, as compared with 70.7 per cent on June 25, last. The condition in Alabama was 67 per cent of normal. A condition of 74.1 per cent forecasts a yield per acre of about 170.4 pounds and a total production of 12,519,000 bales, against 11,329,755 bales last year.

FARMERS UNION TO HOLD RALLY

L. B. MUSGROVE WILL BE ONE OF SPEAKERS SATURDAY, AUGUST 7.

L. B. Musgrove, of Jasper, will be one of the principal speakers at a Farmers Union rally to be held Saturday, August 7, at Freeman Parker's spring, near Parker's Gap, this county. Details of the rally were announced today by J. S. Parker, committee chairman.

A ball game will be one of the interesting features of the program and a picnic dinner will be served at noon. Music will be furnished by a brass band. In addition to Mr. Musgrove, Ed Smith, chairman of the educational committee, will deliver an address.

Sans Money, Roll Dice for Biscuits In County Bastile

The attraction of the ivory cubes for the darker race is overpowering.

Sans money, dusky sons of Africa this morning were engaged in an animated crap game in the Morgan County jail with the daily allotment of biscuits as the stakes.

At nine o'clock today one prisoner was a week ahead on his allotment, having won 20, with the heaviest loser rapidly approaching the starvation stage.

CONTRACTOR WHO DISAPPEARED IS WELL KNOWN HERE

John Thompson Jr., Nashville contractor, who disappeared mysteriously Thursday night after boarding a train at Memphis and later was found in Texarkana, Ark., is well known in the Twin Cities. For many years he has been connected with the Leftwich paving company, now doing extensive improvement work in Albany, and has made many personal visits here.

Mr. Thompson in company with J. W. Cochran of Nashville and H. L. Harwell of Memphis, business associates, boarded the Nashville sleeper in the Memphis railroad yards early Thursday night to return to Nashville.

Mr. Thompson, upon entering the train announced to his companions that he was feeling bad. He retired to a stateroom the three had engaged, but later left, apparently for the men's dressing room, clad in his bathrobe.

When he was missed in the morning Mr. Thompson's friends requested that the entire train be searched, but he could not be located. At first it was believed that Mr. Thompson had fallen from the train and was probably killed.

Friends believed that Mr. Thompson became ill after retiring on the train at Memphis and walked to the vestibule for fresh air. Instead of returning to the same coach, it is believed that he boarded a sleeper going in the direction of Arkansas, before the Nashville train left the Memphis yards.

Not realizing his mistake and still dazed from his sudden illness, Mr. Thompson was carried to Texarkana before he could make a stop. Upon reaching the Arkansas city, he requested a friend to notify his wife in Nashville that he was safe.

FOUR ARRESTS ON INDICTMENTS MADE

WEEK-END NETS MANY ARRESTS ON TRUE BILLS RETURNED BY GRAND JURY

Four arrests on grand jury indictments were made by the sheriff's office over the week-end, including: Sarah Ratliff, alias Sarah Hobbs, negro, arrested at Hartselle charged with violating the prohibition laws, \$500 bond.

Susan Davis, negro, arrested at Hartselle, charged with violating the prohibition laws, \$500 bond.

Alf Davis, negro, arrested at Hartselle, charged with violating the prohibition laws, \$500 bond.

Julius Dailey, negro, charged with assault with intent to murder, \$500 bond.

RAILROADS TO ASK STATES FOR RAISE SAME SIZE ONE GIVEN BY NATION

Movement Has Been Formally Launched by Rail Men at Washington.

STOCKS ADVANCE ON BOOST OF CHARGES

Opened From One to Three Points Up on the New York Exchange.

(International News Service) WASHINGTON, Aug. 2.—A movement to secure railroad increases from state authority of the same percentage as those granted Saturday by the Interstate Commerce commission, was launched here today.

Walter A. Shaw, of the National Association of railroads and a public utility commissioner, announced today that state commissioners who sat with the interstate commerce commission during its consideration of the rate increases, have announced their approval of the increases and have urged that similar increases be granted by state commissions, to become effective September 1.

Railroad executives are expected to file application for increases in intrastate rates with state commissions during the present week.

STOCKS ADVANCE

(International News Service) NEW YORK, August 2.—The rate advances granted to the railroads by the Interstate Commerce commission were reflected in gains of from 1 to 3 points in the railroad group at the opening of the stock market today.

STRIKING MINERS ARE BACK AT WORK

(International News Service) INDIANAPOLIS, August 2.—Striking mine workers in Illinois and Indiana are returning to work today in compliance with the peremptory order issued Saturday by President John L. Lewis, according to a statement issued at miner's headquarters.

(International News Service) SPRINGFIELD, Ill., August 2.—Although without official confirmation, it was estimated at the headquarters of the mine workers today that at least 75 per cent of the miners were back at work.

Stages Wild West Performance, and Gets a Heavy Fine

"Pewter" Lewis, charged with having staged a wild west performance on the corner of Bank and Church streets Sunday night was fined on three counts in the Decatur police court this morning.

Lewis, it is alleged, from the vantage point of a buggy, last night emptied his gun into the air and then whipped up the horse for a quick getaway. He was overtaken at the Albany ferry landing by Officers Thompson and Edwards, of the Decatur police department and Chief Deputy Sheriff McGuthrie, who followed him. The defendant was fined \$50 and costs on a charge of carrying a pistol; \$50 and costs on a charge of shooting in the city limits and \$13.00 on a charge of drunkenness. An alleged companion of Lewis also was fined \$13.00 on a charge of drunkenness. The shooting in the plain business district of the city caused much excitement and was followed by many rumors of wholesale slaughter. There were no casualties, however.

The treasury's police court levy this morning was boosted another \$50 and costs by a fine of a negro charged with violation of the prohibition law. It was charged the defendant threw the intoxicants into the river when about to be arrested.

SOME SIDELIGHTS ON THE COST OF COAL

The public dissatisfaction with existing coal conditions has caused the National Coal Association to issue a statement in which it attempts to "pass the buck" to the speculators. The statement says that the Federal Trade Commission report giving the average sales price at the bituminous mines during last April at \$3.25 per ton "clearly indicated the slender average of profit per ton realized by the industry as a whole." Mine cost was placed at \$2.72 a ton by the commission, the statement said, and it was further explained that the fifty cent margin was not net profit but included selling expense, interest on borrowed capital and other items of expense.

The alibi given by the National Coal Association, and its explanation of the wide discrepancy between cost of production and present retail prices, is that the "speculator" has stepped in, held up the consumer at the point of a gun, figuratively speaking, and forced him to disgorge his hard-earned wealth. The excuse, for it is little more than that, is one that will not be readily accepted. It is entirely too obvious that the coal operators have such a long list of regular customers that they are not compelled to go out into the highways and by-ways and hunt up the speculators in order to be able to dispose of the very limited output of the mines. If they are selling to speculators, then they must be fully aware of the fact and must have these self-same commercial vultures on the preferred list. The clever little scheme of forming a distributing agency through which they trade directly with themselves and not only evade the excess profits law but also keep in good standing with the public is one originated in this era of profiteering by certain of the money-mad corporations. This bit of camouflage does not deceive; nor, is it unkind to suggest that at least a few of the coal barons would not be averse to using such methods.

There are other causes than plain profiteering for both the high price of coal and the scarcity of the commodity. C. B. Rogers, chairman of the Alabama board of control, has recently given out a statement in which he charges that coal mined by the state with convict labor is confiscated by the railroads and at the same time these same railroads are moving other coal out of the confines of the state for export purposes. This is a clear discrimination against the citizens of Alabama. Mr. Rogers, in his statement, very pertinently says that the continuation of the practice of seizing domestic coal and allowing the unhampered movement of coal intended for export will "bring about such a sentiment of dissatisfaction among the people as to seriously disturb the industrial operations of the country and menace the comforts of domestic coal users. There is no stretch of imagination by which such acts can be justified before the people when they realize that a continuation of such a practice will result in great suffering in homes, schools and state institutions."

The railroads, after advancing wages \$900,000,000 a year, calmly proceed to ask for rate increases that would net them a billion and a half per annum. Isn't it fortunate that

THE NEWS-PRINT SHORTAGE IN CANADA.

(Christian Science Monitor)

There can be no question that the newsprint shortage in Canada is serious. According to authoritative information supplied to The Christian Science Monitor, in Ottawa, many Canadian newspapers and other publications are faced with the possibility of having to suspend publication. Indeed, already some 30 per cent of Canadian newspapers have been compelled to shut down, and numerous others may be obliged to follow suit in the near future. The anomaly of the situation, and that which renders it particularly irritating to Canadians, is the fact that Canada, which is easily the largest producer of pulp wood in the world, cannot obtain supplies sufficient, or anything like sufficient, for her own needs. The whole issue, indeed, is one of the most important of those which at present lie between Canada and the United States. For it is, of course, almost entirely due to the enormous demand for newsprint in the United States that the Dominion is in her present position. As Mr. James White, assistant chairman of the Canadian Commission of Conservation, pointed out recently, the publishing business in the United States has reached such huge proportions that it can no longer be supported by the forests of its own country, Canada, indeed, today, is manufacturing nearly two-thirds of the newsprint used in the United States, and is supplying pulp wood and pulp to the amount of an additional 25 per cent.

Now, if there is one thing quite certain about the newsprint situation, not only in Canada, but, very generally, throughout the world, it is that it calls for a far-sighted and courageous policy. The world's publishing business is not likely to decrease. It is, indeed, quite certain to attain very much greater proportions than a present, and every effort should certainly be made to prevent any impediment to legitimate growth. Viewed from the broadest standpoint, the situation presents no very serious difficulties. Both spruce and balsam, the two great stand-bys for pulp wood, are comparatively quick growing trees, having a tremendous territorial range, and the vacant lands of Canada, to say nothing of the United States, if planted with spruce and balsam, and kept so planted, are quite capable within a comparatively short time, of supplying all the demands for pulp wood which could possibly be made.

It comes back, once again, therefore, to the question of afforestation. Canada, the United States, and every other country need, more than ever before, to tackle this great question; for it is certainly one of the problems of the present time. As Mr. White well remarked it affects every man who buys a newspaper or a periodical, a book for his library or textbooks for his children at school. It touches the pocket of every merchant, manufacturer, or other business man who buys advertising space. It affects every man who wants to build, buy, rent, or furnish a house. The list might indeed be extended almost indefinitely.

For the moment, of course, Canada is perfectly justified in taking measures to see that her own needs are met, but merely to supply her own needs, and let the world take the residue, is no solution of the matter. To quote Mr. White, once again, the only proper way to conserve any resource is to develop it to the point of highest productivity and with the maximum of efficiency, and to use every means to maintain productivity at that pitch.

Red Advance Is Cause of Selling Wave on Change

(International News Service)

NEW YORK, August 2.—A wave of selling came on the stock market during the early afternoon today, forcing losses of from 1 to 6 points on the issues.

The continued advance of the Bolshevik forces into Poland was considered as a factor in hammering down the prices. The heaviest losses were in the steel group. Railroad shares, after a response to the announcement of the rate increases, dropped off from 1 to 2 points from the high level. Steel common declined to a new low record for the year, 86 3/4.

A TRAIN OF THOUGHTS FOR THE SABBATH AND OTHER DAYS

The Steel Strike report of the Inter-church movement is an eye opener. In these cities the fact that the secretary of the investigation committee which reported is Dr. Daniel A. Poling, who made a stirring address in a Decatur church a few years ago and fine impression personally will give the report additional weight among local readers.

It seems that the Inter-church movement preachers got to "doing around" instead of just "talking around" about the laborer being worthy of his hire, and endowed with the right to organize and bargain collectively. One of the stated tasks of the movement was to show the living conditions of workmen. "Labor" a weekly publication of Washington, D. C. says of the Inter-church movement report:

The problem that confronted the Interchurch World Movement was simple in its elements: Would it serve God or Gary? Should it continue to draw its inspiration from the Man of Galilee or capitulate to the Steel Trust?

It concluded that it would serve God, and learned that the church can no more escape the malignant influences of powerful economic forces than the state itself.

This publication continuing says "an effort is being made to have the public believe that the present difficulties of the Interchurch movement are based on denominational differences, but claims that it is shortage in funds that this came about because leaders like Poling persisted in "meddling in industrial matters". Some of the results of the meddling of the investigating committee are as follows:

"There can be no doubt," Dr. Poling said, "that the report will be regarded by the public as strongly favoring the laboring man's side of the case. The commission believes that this impression corresponds wholly with the facts it has discovered."

A general summary of the findings of the commission showed the fundamental grievances to be:

(a) Excessive hours; (b) the "boss system"; (c) no right to organize or

to representation."

The remedies desired were: "(a) Shorter day and week with a living wage; (b) representation and conference, and end to the 'boss system' which so often subjects common labor to petty tyrannies; (c) right to unionize and a substitution of industrial democracy for industrial autocracy."

The report declared of the "boss system" of the Steel Corporation: "It is had, the plant organization is military and the control autocratic; the company's claim that it accords the right to join unions and the opportunity of conference is theoretical; neither is allowed in practice. Continuing the report says: 'The use of undercover men is severely condemned. It breeds distrust, breaks down morale and stimulates ill will; it is undemocratic and un-American'. Condemning both the press and pulp of the nation as regards the steel strike Dr. Poling's report says:

"(b) The hostility of the press giving biased and colored news and the silence of both press and pulp on the actual question of justice involved; when attitudes of press and pulp helped to break the strikers' morale. The committee recommends

That organized labor.

"(a) Democratize and control the unions, especially in regard to the calling, conduct and settlement of strikes.

"(b) Recognize unions with a view of sharing in responsibility for production and in control of production processes; to this end:

"1. Repudiating restriction of production as a doctrine.

"2. Formulating contracts, which can be lived up to.

"3. Finding a substitute for the closed shop wherever it is a union practice.

"(c) Scrupulously avoid all advocates of violence.

"(d) Accept all possible proffers of publicity and conciliation.

Promote Americanization

"(e) Promote Americanization in all possible ways and insist, upon an American standard of living for all workmen.

"(f) Prepare more adequate technical information for the public in regard to all conditions bearing upon the calling and the conduct of a strike."

Any who still have doubts as to the real concern of Christians i. e., the intelligent ones and those that love Christ better than churches and the selfish part of "getting to heaven" should get the entire report of Dr. Poling and read the same carefully and prayerfully.—J. E. Blair.

Hudson Super-Six
Cabriolet
With Patent Leather Top

**If a Roadster Is Your Desire Consider this Hudson**

It Has Roadster Capacity But Also Serves In All Weather and Provides Finest Car Distinction

There is an air about the Hudson Super-Six Cabriolet unknown to any other car or model.

It's smartness commands attention everywhere. But it is not the attractiveness of its lines and finish alone which accounts for its distinction.

It is its alertness—its way of getting through traffic while cars less responsive to the throttle are unable to take advantage of every driving opportunity.

That however is a characteristic quality of the Super-Six. Without exceeding the speed limits, it travels faster because of the wide and quickly varied range of its performance.

When required, maximum speed may be attained within a few car lengths. And then the speed can be checked to accommodate the pace of traffic ahead.

That is why the Hudson is the choice of men who count on performance and reliability. And that is also why the Cabriolet is so popular with all who use their automobiles to meet the daily and necessary problem of quick, never-failing individual transportation.

In each work detail we offer the Cabriolet as expression of the highest type of the art.

Orders placed now have reasonable promise of early fulfillment.

Bank Vice-President

Tells How Ziron Iron Tonic Helped His Daughter After Operation for Appendicitis.

AFTER any serious illness, the first thing you notice when you begin to get around is your lack of strength and energy—a tired, weak feeling.

The sooner you get your strength back the better. The thing to do is to eat plenty of good, nourishing food, get all the fresh air you can, exercise conservatively, and take Ziron Iron Tonic three times a day.

Your doctor will tell you this is sound advice, and urge you to follow it.

Read this letter from Mr. J. B. Kelly, vice-president of the First National Bank, Graceville, Fla.: "My daughter had been in bad health since last April. She was operated on for appendicitis. She has been taking Ziron for two weeks. Her appetite is better than it has been. Her nerves are better, and she says she feels better. I know that Ziron is good for weak and feeble people."

Ziron is a scientific, reconstructive tonic, prepared from valuable strength-building ingredients, for weak people with thin blood. Druggists sell Ziron on a money-back guarantee. Try it.

CLUB CALENDAR

Wednesday Afternoon Bridge Club, 8 o'clock Mrs. Pete Ballan

MRS. COWDEN OF UNION CITY, HONORED

Saturday afternoon from three to five, Mrs. W. N. Cowden entertained delightfully at Bridge for her house guest, Mrs. W. W. Cowden, of Union City, Tenn.

Pretty arrangements of cut flowers and potted plants decorated the porch, where the interesting game was played. The prize awarded, fell to Mrs. B. M. Bloodworth, who made top score for game. Mrs. W. C. Bailey cut consolation. The honoree, Mrs. Cowden, was presented a handsome hand-made card table cover as souvenir of the afternoon. At the conclusion of the game dainty ices were served.

In the company were in addition to Mrs. W. W. Cowden, Mrs. Eugene Morrow, Mrs. Will Wyker, Mrs. J. Y. Hamil, Mrs. W. C. Bailey, Mrs. Harry Carpenter, Mrs. Rufus Pearson, Mrs. Hugh Greer, Mrs. B. M. Bloodworth, Mrs. J. W. Jones, Mrs. Roger Gardner and Mrs. Sam Wilde.

SCOTTSBORO WINS PRIZE AS CLEANEST TOWN

Announcement has been made by the judges of the cleanest town contest, Mr. George H. Hazelhurst, sanitary engineer, and Mr. C. A. Abels, director of inspection, that Scottsboro, of the First District, has been awarded the prize for being the cleanest town, giving Fairfield, Jasper, Eufaula, and Mobile honorable mention. Seventeen towns entered the contest four in the first, the prize district; four in the second, with Jasper honored; three in the third, Fairfield receiving honorable mention; one in the fourth district; two in the fifth; four in the sixth, Eufaula receiving the honor; one in the seventh, Mobile receiving honorable mention. Six towns were eliminated by the chairman of the Civic committee, after a study of the questionnaires turned in to her. Three towns withdrew from the contest before being judged, leaving eight towns to be visited by the judges.

The first step in a clean-up campaign is the cleaning of private premises. The most striking example of the organization of the private householders was the clean up of the residence district of Scottsboro. The town was divided into four residence sections, and the business district. A banner to be competed for monthly was offered for the cleanest district of the town. The enthusiasm was very pronounced, and the results gratifying. School children cleaned vacant lots, collected cans and other rubbish, and in two instances tore down old, ramshackle barns and utilized the space on which they had stood for playgrounds. In the several districts, blocks on the same street vied with one another. The municipality was not prepared to remove so great a quantity of rubbish, so the inflammable portion of it was burned, and only the solid matter hauled away. For this an army road truck was pressed into service. Scottsboro has a population of 1,000. This is characteristically an agricultural community, with a business district concentrated about the Court House Square.

The cutting of weeds in vacant lots is a problem in the beautifying of a residence district. The rank growth of weeds is a disseminator of the pollen and seeds of more weeds, and the harbor of venomous snakes and mosquitoes. Fairfield probably affords the best example of the solution of this problem. A city ordinance declares the growth of weeds beyond a certain limit to be a nuisance, and provides that unless cut within a certain period after notice has been served, the city shall cut the growth, and make a charge against the property holder, at a given rate per front foot. This charge is entered on the tax record, and collected with the tax account. Fairfield has been incorporated two years, but most of the civic improvements now enjoyed by its residents were made prior to the date of incorporation. It has a population of 5,500. Jasper has a population of 500. It grew up from a small village. The Civic club was confronted with an enormous task when the contest was entered, and has accomplished marvelous results.

Eufaula deserves special mention for the results obtained, for original conditions were very similar to those of Scottsboro. Both business and residence districts were remarkably clean, and the city officials displayed profound interest in the contest. Eufaula has a population of 6,200.

Mobile has a population of 70,000. Considering the fact that this is a seaport, it was surprisingly clean. The city removes garbage and rubbish daily, and the entire city is noticeably free from flies. Vacant lots are not cared for.

It is the opinion of the judges that this contest marks the beginning of popular interest in community cleanliness and the value of sanitation in this state. A large amount of good was accomplished, a larger amount can be accomplished. The field offers a wonderful opportunity for needed development. (Extracts from a very complete report sent to the president. Sincere thanks must be extended to the State Health Officer for his assistance when called upon by the A. F. W. C. for help in judging the towns entering the contest. This assistance was most willingly given, and Mr.

Baby Girl Wins 3 First Prizes

Parents of Louisiana's "Champion Baby" raised her on Dr. Caldwell's Syrup Pepsin

THERE is always a good deal of sickness in the summer months, due to the hot weather. The heat is especially severe on babies and children, and often it interferes with their development and growth. They lose appetite, pass restless nights, suffer from indigestion, and finally constipation.

In the hot Southern States mothers give a combination of simple laxative herbs with pepsin, at the first symptom of constipation. This formula is known to druggists as Dr. Caldwell's Syrup Pepsin, and they have sold it under that name for a quarter of a century. It is now the sole medicinal reliance in thousands of families.

Little Dorothy Boylan knows what real hot weather is ten months of the year. She is the daughter of Mr. and Mrs. Harry H. Boylan, and lives at 210 North Alexander St., in New Orleans. She has won three successive first prizes as the "Grand Champion Baby of Louisiana," and her parents say the only medicine they have ever given her

DOROTHY BOYLAN
Three-year-old baby, champion of Louisiana

is Dr. Caldwell's Syrup Pepsin. It has kept her healthy and built her up, and helped make it possible they write for Dorothy to be a prize-winning baby. You can obtain a bottle of Dr. Caldwell's Syrup Pepsin at any drug store. You will find it pleasant to take, and it does not gripe or weaken.

FREE Millions of people of all ages suffer from occasional or chronic constipation. Let them send name and address to Dr. W. B. Caldwell, 512 Washington Street, Monticello, Ill., for a free sample bottle of his wonderful Syrup Pepsin. 8 million bottles were bought at drug stores last year, the largest sale in the world.

TO THE PATRONS AND FRIENDS OF THE ALBANY PUBLIC SCHOOLS

July 30, 1920

This is an appeal for boarding places for our teachers. Next session our schools will employ more than forty teachers, twenty-five of whom will need homes, as they come from other cities.

Our citizens will have to open their homes to these teachers, if we expect them to come to us. Please write me the number you will take and the amount you will charge them for board. Give, also, the location of your home. This matter must be taken seriously, as our schools cannot be opened until homes are provided for our teachers.

First 'James Cox' Gets Name Here

The first "James Cox" has been named in the Twin Cities. To Walter J. Nesbitt, well known local insurance man, goes the honor of being the first to use the cognomen which bids fair to be very popular in this presidential year. Mr. Nesbitt's family recently was increased by the addition of a kitten. The cat's new name is "James M. Cox". It purrs nicely when the name of Woodrow Wilson is mentioned, but ruffles its fur when it hears the sound of Harding.

WILLIAMS HEARD AT LOCAL CHURCHES

RETURNED MISSIONARY SPEAKS FROM CENTRAL AND SOUTH- SIDE BAPTIST PULPITS

Rev. J. T. Williams, brother of T. E. Williams, of Albany, made two missionary addresses at local churches yesterday. Last night Rev. Williams, who has just returned on leave, after 7 years' preaching service in South China occupied the pulpit of Rev. Grover C. Walker, Pastor of the South Side Baptist church and yesterday morning spoke from the pulpit of the Central Baptist church.

In the course of his sermon Rev. Williams gave some of his own personal experiences in China; calling special attention to the vast ignorance and religious superstition among the four hundred million population of that country. The worth-whileness of winning such a powerful people as the Chinese to Christianity was stressed. Foot binding and the opium habit were on the wane in the Celestial Kingdom, according to the speaker, as a direct result of the Gospel teachings. It was declared that before militarism got a hold in China, it was of practical and selfish importance to the Christian nations, that that great population be committed to Christian ideals.

At the Central Baptist Church Dr. W. P. Wilks, the pastor, in introducing Rev. Williams to the Central Baptist congregation, which was large, said that the distinguished visitor was years ago one of his college mates, and had gone to China as a result of a distinct divine call.

After citing from the Scripture, that God had planned the redemption of the whole human race from error, Rev. Williams declared that he believed God meant what he said, and that it was the duty of every human being to help bring God's wishes to pass. For the most part, Rev. Williams devoted his morning address to telling in detail just where and how the money being subscribed for foreign missions was spent.

The speaker's account of expenditures and results so well satisfied certain prominent members of the Central Baptists that they declared that they considered their mission investments their best investments, by far.

SERVICES AT THE CHURCH OF GOD

Sixth Ave., and Fourth St., South
You are invited to hear a series of sermons which will be preached at the Church of God this week on the following subjects:

Monday night: "The Ram and the He-goat" of Daniel 8.

Tuesday night: "The Four Beast" of Daniel 7.

Wednesday night: "The Beast of Revelation with Seven Heads and Ten Horns."

Thursday night: "The Sabbath."

Friday night: "Hell and Everlasting Punishment."

Come and listen to what we have to say.

Services each night at 7:45.

L. E. Hall, Pastor.

Dickens' Cold.

Charles Dickens had a cold and thus described it in a letter to a friend: "I am at this moment deaf in the ears, hoarse in the throat, red in the nose, green in the gills, dumb in the eyes, twitchy in the joints and fractious in the temper."

Milk From Coconuts.

Along the Orange river natives have an ingenious way of producing "milk." After cutting the top from a coconut they place it over ashes so that the warmth may cause the fat and "butter" contained in the husk to be absorbed by the milk; this changes the milk's quantity and gives it a palatable taste.

"Help One Another"

A splendid, big and broad-minded spirit is this "Help one another" talk that is going the rounds of the big business interests of the nation. A spirit which will weld together the commercial forces of the country as nothing else can do.

Helping one another is simply a unity of action between the buyer and seller which works to the advantage of both. It is a factor that is fast becoming a potent power in the development of the resources of the United States.

This spirit of "Helping one another" can be exemplified by the masses of our citizenship in no stronger or more helpful manner than that of—

Patronizing Home Enterprises

In just so far as we spend our money, earned in Albany and Decatur, with local business institutions, will we individually and as a community, prosper. It is a self-evident fact that every dollar which leaves Albany and Decatur takes away just that much from the general prosperity of the entire Albany and Decatur trade territory.

Ponder well over the loss that you, your neighbor, and his neighbor, inflict upon not only the citizens of Albany and Decatur, but yourself, every time you send money away for something that could just as well be purchased from some local store.

Help one another—and

You'll Be Helping Your Own Family

and your own friends as well as yourself individually.

Add to—don't take away from—the prosperity of yourself and your fellow citizens by always trying to fill your needs from Albany and Decatur stores first.

CHANGE NOTION ABOUT CALOMEL; NOW DELIGHTFUL

Old-Style Calomel Gives Place to the De-Nauseated Tablets Known as "Calotabs"—Perfectly Safe.

With all of the liver-cleansing and system-purifying qualities of the old-style calomel, but robbed of its nausea and danger, Calotabs is destined to become one of the most popular as well as the most useful of all home remedies. For biliousness, headaches, constipation and indigestion it is indispensable, for nothing but calomel will straighten out a disordered liver.

One Calotab at bedtime with a swallow of water—that's all—no taste, no griping, no nausea, no salts. Next morning your liver is active, your system purified, and you are feeling fine, with a hearty appetite for breakfast. Eat what you please, no danger.

Genuine Calotabs are never sold in bulk. Ask for the original, sealed package. Price thirty-five cents. If you are not thoroughly delighted your druggist is authorized to refund your money.—Advertisement.

THE BABE AS A NEWS HOUND
"The fight is ours" declares the slugging Babe in his latest publicity move. "The Indians are a worn out machine and all we have to do is to hit and run, our offensive alone will grab the banner." This is the whole of Ruth's newspaper aspirations boiled down.

In the recent Yank-Indian maneuver the leaders of the American Association backing the French before Verdun. "It was a cinch," further declares the leading son of swat, "Absolutely the easiest yet and the Indian hurling corps had to be brought out in force every day, ready for the emergency."

However, even the turn of the tide in Yank favor in the battle with the warwhooping representatives was not long enough to put the slugging New Yorkers at the top of the pile but for one day and since the Indians have shown the Gothamites a clean pair of brogans, Ruth touted Stan Coveleski as the best on the Indian slab staff and Stan was the very Indian that was derrick when he faced the runners up at the Polo enclosure. The Yanks beat Coveleski just 11 to 3 and Ruth led in the attack with his home run total rising all the time. The figures for the week show that Cleveland is the best in the league for they are the moguls in the batting and also hang to the top in the Club fielding. The Yanks are the fifth team in both instances and it is a wonder that they haven't had a tumble yet. The White Sox won from them yesterday via the kalsomine stensil and all the time the Senators were recovering from the Tiger defeats and landing the K. O. on the Indians. Just keep your eye on the Chicago White Sox and you will see the team that demonstrates the "never say die" spirit to the last man and they will also be out of the "also an" class when the hard won banner is hauled down to one of the big three Cleveland, New York and Chicago, when the October curtain is drawn.

POOR OLD VOLS

Mr. Blinker Horn of the Nashville Tennessean sport staff stayed in the press box at the dell just long enough to see the Bold, bad Barons put Mr. Ellam's people under the weather in more ways than one. Blinker evidently had the lines of the Ancient Mariner on the brain for he says in his box over the official tribunal, "And then it rained." This isn't the actual line of the Mariner but Mr. Cole ridge hands it out as "when I awoke it rained." This could also be tagged to Mr. Ellam for his gents were certainly in a slumbering attitude. When they awoke the Barons were in the lead some 6-1 but the Vol crowd scored two before J. Fluv trotted out the fire department.

UNCLE JOSH COMES BACK

Uncle Josh Cody is now hard at it in an effort to put the winning charm on the Columbia hirelings. Josh was landed when the former Columbia manager failed to produce the winning combination. Josh has now finished losing two to Elkton, Tennessee but is fast showing that his training at Vanderbilt was not in vain when it comes to athletics.

"SHOULD A WOMAN TELL"
PRINCESS THEATRE TODAY

It is a tense, human and infinitely appealing story of a woman confronted with one of life's greatest dilemmas. Meta Maxon, daughter of hardy, somewhat grasping parents, never, until circumstances led her out into the world of wealth, knowing the ways of men, came to a point in her life when she must herself make a great decision.

She found in the young, idealistic artist living in the little New England town in order to sketch the rugged grandeur of the coast and sea, the one real romance of her life. Yet there was something which Meta left Albert should know. She was well aware he himself—for he had candidly confessed it—had not led a life entirely blameless. But she was no less aware that men regard a woman's mistake as unpardonable, and their own as joyous escapades. To tell him would mean to lose him. To keep her secret would mean a life of uneasy happiness, unutterably miserable.

How this woman chose to act is told with all the skill and finish characteristic of Screen Classics, Inc., productions enacted by an all-star cast, starring Alice Lake, supported by Jack Mulhall, Frank Currier and a notable cast.

The aboriginal tribes of the Malay peninsula are unusually receptive to civilization.
